TestDock duplex test · front

Paper: A4 (210 × 297 mm) · print both pages on one sheet, 100%

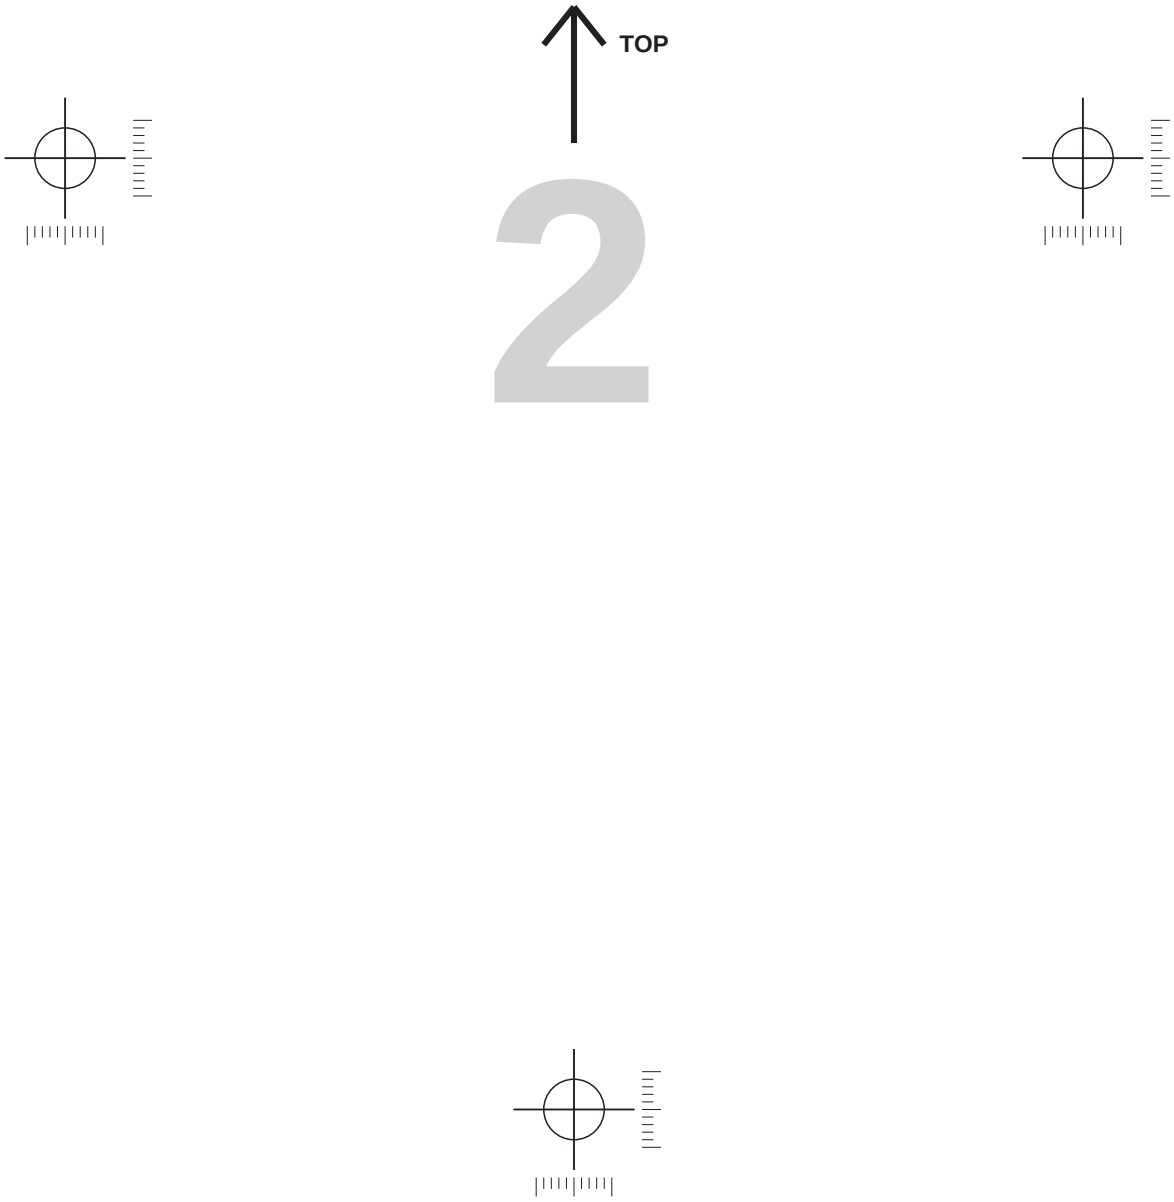

Print this PDF two-sided (duplex), long-edge flip.
Then hold the sheet against a light:
the crosses on both sides should overlap.

Original pattern. Registration crosses are mirrored so both sides line up after a long-edge flip.

TestDock duplex test · back

Paper: A4 (210 × 297 mm) · print both pages on one sheet, 100%

Side 2: the TOP arrow should point the same way as side 1.
If it points down, switch to the other flip setting.
Use the small scales to read any offset in mm.

Original pattern. Registration crosses are mirrored so both sides line up after a long-edge flip.
